Pope Hennessy cannot speak in public upon the Education Question without, on each occasion, failing to give even the barest justice to the Governmental system. Indeed, it is difficult to ac count for the persistency with which His Excellency continues to reiterate phrases which have been unanswerably Per Diamante, for Manila, 4 Europeans, shown to mean simply nothing. Some allowance, however, must be made for Per Peking, for Shanghai, Lieut. Friend, the delicate position in which the Head Matins :- Venite, Monk 5; Psalms, 40. of the Executive was placed at the laying of the foundation stone of St. Joseph's College the other day. No one who claims to be a true advocate of education will fail to rejoice over the laudable endeavours now being made by the Roman Catholic Clergy and the Christian Brothers to extend the blessings of instruction to the youth of the Colony. Education under any con- Hayllar, Q.o. ditions is good, and ought to be encoursered by every good officer and Tax communication of a Onlooker," not the Governmental aid to the Christian for the St. Joseph's College, by the inserted. tardy acquiescence of Bishop Ramondi.

Nov. 2nd 44.7 15 a.m., left Shangasi with Kroslieney the Governor has thought

correct, there can be no doubt that then success belongs to the Grant-in-aid system, how much to the trifling modifications made upon the Grant-in-aid Schedule, and how much to the Schedule itself, the intelligent public who have followed the discussion can easily estimate. It is sheer perversity which leads Sir John Pope Hennessy to say that the "principles under which the Grant-in-aid schools in this Colony were

supported." have been altered; for the principles upon which the Government, aids education in sequiar subjects, according to the results produced, are precisely what they were before the clerical alterations were made, of which the Governor and the ultra-religious educational party have made so mach. It is true that those of the ultra-religionists. whose consciences had taken fright at the terrible word "secular," had held aloof. for some time from the Government scheme; although, why the consciences of those gentlemen should have been more tender than their confreres at Home we have never yet discovered. The only explanation is that the Head of the Executive seemed to be imbued with same views regarding so-called secular" education as those held by the ultra-clerical party, and that therefore hopes were entertained that the denominational grants would replace those based upon non-religious results.

This hope has, however, been so utterly

dispelled that not only have the derical gentlemen surrendered themselves to the situation, but His Excellency now speaks of the surrender by an entirely. different name for the sake of appearances. As we have already hinted, some allowance must be made for the facts that His Excellency was speaking in the very stronghold of those who had tought hardest against the Government system, and that he had to lay some kind of foundation for his praise of Bishop Raimondi and his own good self. Intelligent ratepayers need not feel in the least uneasy on the matter: the definite results for which they pay to all schools are those obtained in secular subjects 11.10 A.M. Letters may be posted with only, although the word "secular" has been considerately removed from the Schedule, and the words the subjects mentioned in the Standards and to no others," are inserted in its place. To broad-minded men who have no fear of buman and erring conceptions of the true meaning of "secular," as applied to mere neutrality towards denominationalism for the common benefit; this

change means nothing; but there are good and worthy men who persist in looking upon "secular" instruction as synonymous with "atheism," and to these the literal change means much There is no valid reason, however, why the Governor should join in this false cry; and there is still less reason -not to speak of the bad taste-in his making that false issue the ground of an unworthy attack upon D. Stewart, who has in his capacity of Government. Inspector conscientiously framed and has stendfastly, consistently and honestly carried out the Government system, both in its spirit and its letter, for many years. For this breach of the principles of fair-play, and for this act of disloyal-Daylight.—Thales leaves for Coast Ports. which he represents, His Excellency has not the slightest shadow of excuse; and it is only to be regretted that, although experience might be expected to produce more massive ideas of statesmanship. yet, Sir John Pope Hennessy signally fails to show any improvement as an administrator. Dr Stewart has been an able advocate of the secular system, as the Governor admits; and it is quite certain that the worthy Doctor never led the Secretary of State to believe what is now credited against him, vis. that the "secular" or non-religious character of the Government scheme ever wholly depended upon the mere presence of that much shused word. Before that insinuation on the part of the Governor can be accepted, the passage containing the small grain of foundation for the assertion must be laid before the public; and in asking that this should be done, we think that we

That the principle of the Educational

SUPREME COURT. IN ORIGINAL JURISDICTION.

(Before the Full Court.) Saturday, Nov. 5. RETURN OF WRIT OF HABEAS CORPUS. The case of the thirteen prisoners de-

tained in Victoria Gaol, for such a length of

time, was again before the Court to-day. Mr Francis, instructed by Messis Brereton and Wotton, appeared for the potitioners; and the Attorney General Hon. E. L. O'Malley), instructed by the Crown Solicitor (Mr Sharp), for the Crown. Mr Francis moved that the writ be read and filed, and the Registrar read the affidavit : the writ of certiorari was also read. Mr Francis said he had to move that their Lordships discharge the prisoners on two grounds first, that the warrant of commitment, and the whole of the proceedings from beginning to end were wholly illegal and void coram non judice; and half in orient and he estimated the value secondly, assuming that their Lordships of the flowers and vegetables destroyed at | were against him on that point, and if they held that the warrant of commitment and Ng Alan, a gurdener employed by Mr | the proceedings were originally good, on the ground that the detention and imprisonment under the warrant had been unreasonably and unnecessarily prolonged, and had become illegal. Assuming that the warrant on the face of it authorised the detention of the prisoners for such a time as was necessary for their deliverance to the Chinese authorities, any detention beyond what was reasonable became illegal. Francis pointed out to their Lordships that if the warrant was good to detain them eleven months, it was equally powerful to detain them for eleven years. Their Lordships would see that if these prisoners were to be detained until the Governor's order for their rendition had been issued, it was within the power of Governors to detain these men for the natural term of their lives. That could not be the meaning of the ordinance as it was passed. Any reasonable detention under the warrant was of course being made to either of these places. roperly lenced and no spinals could get in referred their Lordships to the spirit and

TREATY. The following letter on the subject of the the foreign trade may be placed those Revision of the Japanese Treaty has been | caused by the Spanish Customs Regulations. paratively favourable tariff. Independently, therefore, of smuggling, and the corrupt practices which an increase of the duties would probably develop, the Chamber strongly deprecates the adoption of the proposed scale of du ies in the draft treaty, or, indeed, any advance whatever the duties under the Treaty Tariff of 1866.

The plea advanced by the Japanese Govemment in favour of the proposed revision is that of an increased revenue: but, bearing in mind the small amonut represented by duties on imports in the present aggregate revenue of that country \ it cannot reasonably be expected that by Acrossing the duties the object of the Government would be at-

Having regard to the abundant natural products of Japan, and the capabilities of the country for the development of a large international trade, it is a matter of regret the Government does not rather direct its attention to the removal of restrictions interfering with its foreign trade.

By opening new ports, improving internal transit. allowing foreign vessels to be the shipment of coal and other mineral products, together with the encouragement of industrial enterprise among the people. the material prosperity and steady growth of the trade of the country would

be substantally promoted. The attention of this Chamber is naturally drawn to that part of the new tariff applyingto cotton goods and yarn. Cotton textiles are included under group 6, class 1, the proposed duties on their value varying from about 12 per cent. to 20 per cent., whilst on cotton velvets and other goods the duty would vary between 15 per cent, and 20 per cent., or more than double the present rates. On cotton yarns and thread in group 13. "miscellaneous." the duty would be double amounting to 10 per cent.

The Chamber is of opinion that the incressed duties on cotton textiles would ver seriously affect future imports, and in the case of yarns especially, which are largely used by the native manufacturer, any crease in cost would press heavily on the poorer classes, who are the largest consumers of the low sorts of cotton manufac-

The duties are made ad valorem, and to adjusted, no objection should arise, A to some low classes of goods, if fixed at a

moderate rate. The question of valuation for duty purposes could be best dealt with by merchants the average values over a number of years. and whilst this Chamber agrees in the main with the remarks on the proposed revision addressed to Her Majesty's Government by the Chamber of Commerce at Yokohama, it advocates the appointment of a committee of merchants of that Chamber on the revision, to assist in fixing the valuations at a fair average between the importer and the

Government. It is most 'desirable that Her Majesty's Government should also press for the inclusion of English officials on the Commission of Customs of Japan, in accordance with the system now prevailing in China, and the Chamber considers it of the highest importance that a system of drawbacks for the re-export of goods from Japanese ports should be established.

I have the honour to be, my Lord, your Lordship's obedient, humble servant, . # (Signed) JOHN SLAGE, President. The Lord Tenterden, K.C.B., &c., Permanent Under Secretary, Foreign Office, Lordon.

THE REVISION OF THE JAPANESE SPANISH CUSTOMS REGULATIONS. Among the annuyances of ship-masters in addressed by the Manchester Chamber of Complaint after complaint is made of the more complicated. We are constantly reporting cases and publishing letters from ship-masters, who indignantly protest My Lord. I have the honour to acknow against the impositions to which they are ledge receipt of your Lordship's circular subjected in Spanish waters. We recently letter of July 22 last, notlying the claim gave an account of two American shipmade by the Japanese Government for a masters who were fined in a Cuban port for revision of the treaty concluded between some slight infringement of new regulations Great Britain and Japan in 1858, and ex- of which they had not then heard. Owing to hindrances im- the subject. This will probably be done. posed on trading intercourse by the Japan- But these officials are accustomed to having the people, the trade is small in relation to not probably be apprehensive of punishthe population, even under the present com- ment. The ship-master's statement simply throws more light only upon the manner, in which foreign shipping-principally American and British-are treated in Spanish ports. It is unnecessary to cite more cases in proof of this, for their number is legion. The regulations are often complicated, absurd and inconsistent, and they are so arranged that it is with the greatest difficulty a shipmaster can escape from infringing them. And the least slip is jealously watched for,

and is punished by a most enormous line. It is difficult to understand the reasons or such curious regulations. They are harmful to trade, and in the end inflict more damage upon Spanish commerce than they do upon that of her neighbors. If they were meant to drive away certain shipping they could not have been more ingeniously constructed, yet it is only natural to suppose that some more direct means would have been adopted for that purpose. They must certainly be regarded as a barbarous way to protect trade and customs. This could be accomplished much better in a simpler manner, but the great difficulty is to make Spain perceive or admit chartered by natives, affording facilities for that fact, Protests without number have been made, showing that these regulations have in their enforcement too often treated foreign shipping unjustly. In spite of all the formal representations upon the subject made by the Governments of the United States and Great Britain. Spain simply makes profuse promises in return; meanwhile, however, acting as coolly and as leisurely in making any reparation as, even the "abominable Turk." It seems almost mpossible to secure any protection for our shipping against the many exacting terms of these customs regulations. They are promulgated, fines and seizures are made under them, and then follows a peculiar resistance to any claim for damages. Spain remains passive in the matter. Protests are acknowledged, but nothing is done. She simply takes no action when attempts are made to have fines remitted, or unjust and inconsistent regulations annulled. She

defeats all claims, secures the fines, and

retains her obnexious and silly regulations simply by offering a regative resistance. A man may arrange the entrances to his grounds to suit himself, but when he permits his neighbors to enter them, he must have some regard for their rights in the this principle, when the values are properly matter. He will be brought to a realizing sense of his obligations to the community if specific duty could, however, with advant he wrongs them unjustly. Spain is in much age be applied, on account of its simplicity, the same position, with the exception that no punishment is meted out to her. The constructions often placed upon her customs regulations by her own people, so far as vessels are concerned, are more than harsh. in Japan having a practical knowledge of They are opposed to the principles which rule international trade and are both unjust and illegal. But complaints have availed little, because our Government has not seen fit to push matters vigorously to a conclusion. Our West India fleet suffer the most perhaps from this inaction at Washington and indifference at Madrid. As a consenuence of it, the master of any American ship entering a Spanish port, knows not whether before he sails he will have violated some customs regulation, never before heard of by him, and be subjected thereby to a fine. These annoyances are the result of years of official corruption and of indifference upon the part of Spain to any changes in customs regulations. This negative resistance is the hardest to overcome, because it offers no opportunity for any means but force to compel just action. Yet as long as promises are accepted; force is unwarranted. But some efficacious way must be found if fines. There seems only one way toward relief. A good commercial treaty should be made with Spain, and if this is not possible, at least one that will settle the lady went to a drug shop and had a pre- difficulties under which our vessels suffer scription filled, "How much is it?" inquired in Spain and her colonies. This would be the clerk. "But I have only, one shilling ask for one, and our own Government does not work very actively in the matter. But it can be strongly urged to do so, and as a means toward that end, every ship-master or owner, whose vessel has been unjustly fined by Spanish authorities, should send a statement of his case to Washington and ask for a settlement of it. This will be only the beginning of the work. The State Department will pobably await Spain's convenience in the matter. But it should not be given any rest. It should be requested to ask an early settlement from the Spanish Governbounced out at a go-as-you please gait, and ment and to see that this demand is not forgotten. ## Money Order Regulations.

1. - Money Orden are exchanged with Hallowe'en the United Kingdom, New South Wales, Harrington, Queensland, South Australia and Port Darwin, the Straits Settlements, Western Australia, and (except at Shanghai) with the Japanese Empire. Hongkong also

issues orders on Shanghai, and vice versu. 2.—Small sums may be remitted between the other Ports by means of Postage Stamps, subject to a charge of one per cent. for cashing them.

3.—Many Money Orders are supplied to residents at the smaller Ports in this way. An application for an order\* is filled up, and is enclosed with a stamped, directed and unstaled envelope to the Postmaster at the nearest issuing office. The application must be accompanied with the full amount including commission) in cheque, postage stamps, or other equivalent of cash, and little margin should be left for variations of exchange. The Postmanter issues the order, sends it on in the envelope, andreturns the change, if any, by first oppor tunity, with a receipt for the letter, if it were to be registered, as it always should be. Care should be taken to send these applications in time, as the Money Order flions close some hours before the deparures of the mails.

4.—No Order must exceed £10, or \$50. or include any fraction of a penny, nor will more than two such orders be issued to the same persons, in favour of the same payee, by the same mail. Orders will be drawn at the current rate of the day | and paid at the rate of the day when the advice arrived. The commission is as follows

#### THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octave pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manuers and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resumé in each are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or appublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about Ohina. The lecture on Chinese Poetry in this volume is alone worth the price of the Review. Address China Review, Hongkong. - Northern

Christian Advocate (U.S.) Tribner's Oriental Record contains the following notice of the China Review :- " This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calculta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publigity as is now provided extremely desirable and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of bonour is deservedly given, an excellent summary is presented of the chronological problems and arguments in lived in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-po, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary seal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review was receive the support necessary to insure may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will V

#### THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at Hour Dollars per annum delivered in Hong-kong, or Seven Dollars Fifty Cents including postage to Coast ports.

If is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the

guarantors and securities necessary to place it on a business and legal footing. The projectors, basing their estimates upon the most reliable information from

the various Ports in China and Japan,— from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, — consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of

The field open to a paper of this description—conducted by native efforts, but progressive and anti-obstructive in tons—is almost limitless. It on the one hand commands Chinese belief and interest while on the other it deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials, with Local, Shipping, and Commercial News and Advertisements.

Subscription orders for either of the above may be sent to

TRADE MARK-PHOSPHODYNE. SANCTIONED BY HER MAJESTY'S GOVERNMENT. Protected under the "Trade Marks Act" (3 and 30 Vict.,

ch. 91). Enacted by the "Queen's Most Ex-CELLENT MAJESTY," 20th August, 1875. HEALTH, STRENGTH AND ENERGY.

PHOSPHODYNE

TO RESIDENTS IN INDIA, CHINA, AND THE-COLONIES, IT WILL PROVE INVALUABLE AS A RELIABLE LIVER TONIC AND A VITALISING RESTORATIVE.

DR. LALOR'S PHOSPHODYNE Is a Pure Solution of Phosphorus, pleasant in flavour and appearance, being a perfectly Bright Liquor, combined with Vegetable Alkaloids, possessing marvellous Curative Proporties, the Wonder of Modern Chemistry, free from all Dangerously Active Drugs; innocent in its action, and pronounced by the Highest Medical Authority to be unequalled for its power in replenishing and elaborating the Vitality of the Body; by its supplying all the essential constituents of the Blood, Brain, and Nerve Substance; and for developing all the Powers and Functions of the System to the highest degree, thereby checking all Wasting of the Vital Fluid, and the more Exhausting Wear and Tear of Life resulting from Over-taxed Energies of Body or Mind, maintaining that Buoyant Energy of the Brain, Nervous, and Muscular Systems, which renders the

Mind Cheerful, Happy, Brilliant, and Energetic. DR. LALOR'S PHOSPHODY E

Surpasses all the known therapeutic agents of the present age, as The Only Safe, Reliable and Permanent Cure For all Derangements of the Nervous and Blood-

Systems. Nervous Prostration, General Debility, Mental and Physical Depression, Incapacity for Study or Business, Noises in the Head and Ears, Loss of Energy and Appetite, Nervous Debility in all its Stages, Softening of the Brain; Sleeplessness Paralysis, Pains in the Back, Affections of the Kidneys, Urinary Deposits, &c., Astlana, Serofula, and Skin Diseases, Wasting or Withering of the Muscles, Impure and Impoverished Blood, Premature Decay of Vital Power and all morbid conditions of the system dependent upon the deficiency of the Vital Forces arising from whatever cause.

THE ACTION QF DR. LALOR'S PHOSPHODYNE

Is Two-fold and, Specific; on the one hand increasing the principle which Constitutes-Nervous Energy; and, on the other, the Most Pawerful Blood and Fleshgenerating Agent known; therefore a Marvellous Medicine for Renovating Impaired and Broken-down or Exhausted Constitutions, making the recipient as vigorous as it nature had never been retarded or debilitated.

AN ALARMING FACT.

Tens of Thousands of the people of China are to-day dying from the effects of Brain Disease, Dyspepsia or Disordered Liver, which sap the springs of life. The results of these diseases upon the masses of intelligent and valuable people is most alarming, making Life actually a burden instead of enjoyment and usefulness, as it ought to be. There is not any good reason for this, seeing the united testimony of a great number of sufferers establish that DR. LALOR'S PHOSPHODYNE is superior to any Medicine yet discovered for the Cure of Dyspepsia and Liver Complaints in all their varied forms. The promptness and certainty of its action is such that when the fire of life seems to be dying out in the system, and the mind sympathising with the body, is reduced almost to a state of imbecility, this mighty PHOSPHORIC Restorative, by a few doses, seems as it were to lift the sufferer out of the slough of despond, and recruit and reinvigorate both the frame and the intellect.

TWENTY YEARS' PUBLIC TEST

Prove these facts unimpeachable, being fully borne out by thousands of testifrom every nation and country in the world, freely offered by distinguished families, private persons, military, naval, scientific, and professional men who are well known, and who have experienced from its use all the benefits here indicated. DR. LALOR'S PHOSPHODYNE is sold in Bottles at 4s. 6d. and 11s., by all Export,

Wholesale and Retail Medicine Vendors throughout the World. The large and continually Increasing Sale of Dr. Lalor's Phosphodyne, since its introduction in 1872, has led some unscrupulous persons to foist Bad Imitations on the Public Abroad: Read the following Notice :-

IMPORTANT NOTICE.—NONE IS GENUINE UNLESS the name Dr. Lalor's Phosphodyne, London, England, is blown in the Glass of each Bottle, and every Bottle bears the British Government Stump, with the words Dr. Lalon's Phos-PHODYNE, London, England, Engraved thereon by Order of Her Majesty's Honourable Commissioners; IF NOT, IT IS A FORGERY, and you have been imposed on by a worthless Imitation.

DE J. COLLIS BROWNE'S CHLORODYNE

(Ex Army Med. Staff)
IS THE ORIGINAL AND ONLY CAUTION .- Vice-Chancellor Sir W. Wood stated that Dr. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant Freeman being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browns was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's. See Times, July 12, 1864. The public, therefore, are cautioned against using any other than

> DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refroshing sleep, relieves pain, calnis the system, restores the deranged functions, and stumplates, healthy action of the secretions of the body, without creating any of hose unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most exten-

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered. CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthmia CHLORODYNE effectually checks and ar-

rests those too often fatal diseases-Diphtheria, Fever, Croup, Ague. CHIORODYNE acts like a charm in Dias rhora, and is the only specific in Cholen and Dysentery. CHLORODYNE effectually cuts short al

attacks of Epilepsy, Hysteria, Palpitation and Spasms. CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 1880. To J. T. Davesport, Esq., 33, Great Russell Street, Bloomsbury, London .-"Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of ita finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad intinitum of the extraordinary efficacy of Dr. Collis Browne's Chloredyne in Diarrhosa and Dysentery, Spasus, Cramps, Neuralgia, the Vomiting of Prognancy, and as a general sedative, that have occurred under our personal observation daring many years. In Choleraic Diarrhon, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than substitution of any other than Collis ports in those Countries. Browne's is a deliberate breach of faith on It contains Shipping news from Shanghai, patient alike. We are, sir, faithfully yours, Symes & Co., Members of the Pharm.
